## COVID-19 UPDATE

Shake Experts always strives to keep our customers up to date and provide as much information as we can given every situation.

As the current state of the COVID-19 situation evolves we are considering the health of our staff, customers and community at large. We ensure all staff members have the most current information from Alberta Health, and that they are monitoring for any possible symptoms daily. Shake Experts is a tight-knit family of employees and to date we are fortunate to be healthy and symptom free. We do not take this for granted and will continue to monitor all team members daily, following the guidelines and instructions set out by Alberta Health.

Due to the nature of our work, exposure to homeowners and/or other community members is extremely limited. Coordination between our office, crews and customers is limited to email and phone calls. Any jobs requiring entry to the home will be postponed for now. To comply with social distancing procedures, our employees have been advised that if any homeowner approaches them onsite to keep a distance of 6 feet and ask them to call our office with any questions so that we limit our face-to-face interaction. These precautions are for customers and employees alike.

With these added safety measures in place, business will continue at Shake Experts without any interruption for our employees or customers. If you are a current customer with a contract in our queue and have any concerns, please don't hesitate to contact us.

Best Regards,  
Chris Johnsen  
Shake Experts Inc.
